4 October 1965

MEMORANDUM FOR: DDS&T

The attached invitation from General Davis to provide briefing on the Air Force Research and Development Program has been reviewed by the Director - who believes the proposed agenda is adequate.

The Air Force Systems Command proposes to brief the DCI and a small number of senior officials at Andrews Air Force Base beginning at 8:30 a. m. on Friday, 8 October. These briefings will cover the following subjects:

<u>General Davis</u>	Systems Command	20 min.
	Technological Threat	40 "
	<u>Break</u>	15 "
<u>General Richardson</u>	Research and Development	20 "
	PALM BOARD (Research and Development Budget)	20 "
<u>Colonel Page</u>	PIN DOWN (Soviet Advance Weapons)	30 "
<u>Colonel Porter</u>	MIRV	20 "
<u>Colonel Lyon</u>	SCRAMJET (Supersonic Ramjets)	20 "

USAF review(s) completed.

<u>Colonel Tanlier</u>	Advanced Conventional Munitions -- plus film	30 min.
	<u>Lunch</u>	
<u>Colonel Lettman</u>	VTOL	20 "
<u>Major Mock</u>	Advanced Radar Research	15 "
<u>Colonel Sturges</u>	Reconnaissance Sensors	15 "
<u>Colonel Sleeper</u>	Requirements for Technical Intelligence	10 "

The DCI wishes to have with him no more than four or five very senior key officials representing the DDI, DDS&T, BNE, DDP, and DDS. They should be certified by name to Colonel Sleeper through the SSO as having TKH and SI clearances.

In a broader context, the Director has talked to the Chief of Naval Research and Development and the Chief of Army Research and Development - who have agreed in principle to provide the same kind of briefing which the Air Force has outlined.

The Director also plans to visit Wright Patterson as soon as practical. I will handle the schedule.

W. Elder
